

Da Presidência do Congresso do Daec

Recebemos várias manifestações, congratulando-nos pela realização do XV Congresso Brasileiro de Arritmias e Eletrofisiologia. Dentre todas as recebidas, publicamos na íntegra, a enviada pelo Dr. David Hayes, atual Presidente da Sociedade Norte-Americana de Estimulação e Eletrofisiologia (Naspe).

"I attended the NASPE endorsed Brazilian Congress of Arrhythmias and Electrophysiology. The meeting was well done from all aspects. The scientific content was strong with excellent didactic lectures and a well-organized poster session for competitively submitted works. Their attendance was up this year, somewhere in excess of 400 people. There was a nicely laid-out exhibit space where NASPE had a dedicated area for its materials. From the standpoint of industry, they were well-represented but there was no commercialization of the content of the meeting whatsoever.

NASPE's efforts were recognized by Dr. Halperin. In so doing, he presented a beautifully engraved plaque to NASPE from their Society. I have forwarded the plaque to you so that it can be displayed in the NASPE office.

In summary, this was a well-done meeting that clearly surpassed even their expectations and fulfilled all of the NASPE requirements for endorsement. I would ask that you pass this report on to the CME committee and that the committee look favorably on endorsement of a subsequent meeting by the same society if requested".

Acreditamos que o comentário emitido nesta carta, evidencie o resultado obtido no evento.

Cídio Halperin
